Subject: microsoft settlement

I believe Microsoft and the D.O.J. has reached a settlement and Time Warner, Napster, and the 9 states left in suits do not have the consumers in mind at all while continuing these frivolous law suits. They have a angry desire to" tear the heart out of Microsoft" as one Red Hat supporter wrote. This will all cost the consumer in the latest soft ware that could be developed. and higher prices , Time Warner and AOL just went up on our cable bill last month from \$54.00 to \$64.00. Please bring us closure on these ridiculous law suits Judge.
